EDUCATION

B.E. Computer Science and Engineering, KIT - Kalaigharkarunanidhi Institute of Technology Current **CGPA: 8.6/10.0**
Coursework: Computer Architecture, Computer Networks, Operating Systems, Database Management Systems.

EXPERIENCE

Software Engineer Intern, Get Landed (Cafy), Remote, United Kingdom Jan 2026 - April 2026

- Developed and maintained **backend systems** and automation workflows for content generation and publishing
- Integrated and managed **APIs** to build scalable end-to-end pipelines across multiple services
- Improved **SEO, user engagement, and system efficiency** through optimization, testing, and automation

Full Stack Development Intern, LearnLogicify Technologies, Coimbatore, India May2025 - July 2025

- Developed a production-level backend using **Micronaut**, implementing scalable APIs and architecture for core services.
- Wrote unit and integration tests for all API endpoints to ensure code reliability, coverage, and consistent functionality.
- Implemented **SSO** with Keycloak and integrated the backend with MongoDB, streamlining user authentication and data access.

PROJECTS

Deepfake Video Detection System | PyTorch, OpenCV, Streamlit, EfficientNet, MTCNN, YAML Link | Dec 2025

- Designed an anomaly detection system using **autoencoder architecture with pretrained feature extraction** to identify manipulated facial content based on reconstruction error
- Built an end-to-end pipeline including **video frame extraction, face detection, reconstruction-based classification**
- Developed an interactive **Streamlit-based UI** and improved detection performance through threshold tuning and optimization

E-commerce Website | React.js, Node.js, Express.js, MongoDB, JWT, Nodemailer, Render, Vercel, Postman Link | Dec 2025

- Built a full-stack e-commerce web app with user login, register, and order features
- Implemented backend APIs with authentication using JWT and MongoDB database
- Deployed the application using Render (backend) and Vercel (frontend) with email notifications

AI Resume Analyzer | React.js, Node.js (Express), PostgreSQL, OpenRouter API, JWT Link | Jan 2026

- Built an AI-powered Resume Analyzer using React, Node.js, and PostgreSQL to score resumes and provide actionable feedback.
- Implemented skill gap analysis and AI-generated interview questions by integrating OpenRouter API (GPT-based).
- Developed secure full-stack application with JWT authentication, file parsing (PDF/DOCX), and interactive data visualizations.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, TypeScript
Frontend: React.js, Next.js, HTML, CSS
Backend: Node.js, Express.js, FastAPI
Database: MongoDB, PostgreSQL, Supabase
Tools: Git, Docker, Kubernetes, Postman, Vercel, Render
Concepts: DSA, OOPS, Automation, Web Scraping

CERTIFICATIONS & COURSES

NVIDIA – Fundamentals of Deep Learning	Link 2025
AWS Academy – Cloud Foundations	Link 2025
Salesforce – Agentforce Specialist	Link 2025
Cisco – Introduction to Cybersecurity	Link 2024
CISCO - python Essentials 1 & 2	Link 2026

COMPETITIVE PROGRAMMING

LeetCode : Max rating - **1923** | Solved problems: **300+** | Top **3.82%** globally | Badges : **2** | Highest Rank : **32,065** | **Knight**.
Codeforces : Max rating - **1114** | Position: **Newbie** | Contest attended : **50+**
Codechef : Max rating - **1515** | Position : **2** Star | Problems : **700+** | Highest rank **158** in Starters 233 (Rated) **167** in division **2**.

ACHIEVEMENTS

- Winner– Vidya Incubation Centre Innovation Challenge (2025), awarded Rs. 10,000 for developing an AI-based solution
- Finalist in Cognizant Technoverse Hackathon 2026 MVP Challenge, selected among nationwide participants to develop and present an innovative working prototype solution.
- Finalist– 36-Hour Hackathon (KIT), built and presented a functional prototype under time constraints
- Participant– 24-Hour Hackathon, collaborated in a team environment to design and develop a working solution

SOFTSKILLS

- Strong communication skills – conducted AI sessions for juniors
- Adaptability – worked across multiple tech stacks & remote teams
- Team collaboration – participated in hackathons
